Netsmart
SIMPLE. PERSONAL. POWERFUL.

Exactly what you need, at a price you can afford

myEvolv Essentials (EHR)

To help you thrive in the world of value-based care, myEvolv® Essentials combines software expertise and deep industry knowledge with a streamlined, all-in-one electronic health record (EHR). Tailored to meet your unique requirements, myEvolv Essentials scales as your agency grows, providing exactly what you need at an affordable price.

myEvolv Essentials was designed by clinicians with intuitive workflows specifically created for behavioral health agencies. As the leader in the industry with 50 years of behavioral health IT experience, you can be rest assured that Netsmart technology is the right fit for your clinical, operational and financial needs now and in the future.

Benefits

- Supports best practice workflows for remote care, attendance-based, and community or office-based outpatient programs on a single platform
- Priced with a tiered, user-based model to provide immediate value for your investment
- Built to be scalable and adapt as your organization grows and offers new programs
- Allows you to collaborate with providers outside of your organization, so you can offer more integrated, whole-person care
- Includes technology certified by industry best practices, so you can remain focused on providing services to your communities and gain immediate value for your investment

Features

- Rapid installation process means staff can begin using the system quickly
- Allows for personalization while maintaining industry best practices and clinical integrity
- Powered by myEvolv, an ONC-certified, compliant solution with a 100 percent success rate during usability testing, 93 percent satisfaction rate and zero percent error rate
- Cloud-based platform that works on all browsers and mobile devices
- Works seamlessly with other Netsmart solutions to deliver integrated care
